

Valued Customers,

We know that consumers have many questions and concerns with respect to the COVID-19 Coronavirus. At Avanti, we care about the health and safety of our guests, team members and communities. Avanti is currently CLOSED.

Communication and Guidance

We are taking this situation very seriously and regularly monitoring communication from local, state and federal officials and agencies for updates on COVID-19. Rest assured that we have implemented all guidance and recommendations and will continue to do so to keep you and our team members safe.

We have a long history of A+ scores on our health department inspections with stringent, well-established cleaning protocols already in practice, but we have significantly amplified those and stepped up extra cleaning to highly sanitize our restaurant. We are actively reinforcing proper handwashing as well as hygiene and health standards with our entire restaurant team.

We want you to have peace of mind when choosing Avanti Restaurant for your dining experience. Our first priority is to ensure you have a safe, healthy and enjoyable time eating at Avanti Restaurant. We thank you for your continued support during this time and look forward to seeing you soon.
